NEW Drum Table for Intensive Use Environments
Featuring Marmoleum™ for Extreme Durability

Ontario, Canada - Stance Healthcare announced today they will be launching Resilia, a new version of their Drum Table surfaced with Marmoleum™. This extremely durable Drum Table will officially launch later this month, in advance of its showing at the most recognizable tradeshow in commercial design – NeoCon 2017.

“We are always working on providing innovative designs that will not only meet, but exceed the durability and safety requirements of behavioral health facilities” says President, Carl Kennedy. “In our latest offering, we thought what’s more innovative than using Marmoleum™, typically a flooring product, to offer enhanced resilience and easy maintenance. Not to mention it comes in a wide variety of textures and colors.”

Resilia was designed exclusively for behavioral health facilities. It is extremely durable and easy to clean. Additional features include:

- Steel plinth base for added weight to protect the table from damage
- Marmoleum™ surface material to provide enhanced durability
- Concealed fasteners and tamper resistant glides

To experience Resilia, visit Stance Healthcare (booth 7-2062) at NeoCon 2017 from June 12 – 14 at The Mart in Chicago. For show information please visit www.neocon.com.

Watch for the hashtag #ResiliaBH on Stance Healthcare’s social media sites to learn more about the Resilia Drum Table surfaced with Marmoleum™.
