

TETRIS

Tetris: A modular seating system encompassing the latest style trends of chic minimalism and the structure of geometric shapes. Tetris makes its tradeshow debut at NeoCon this year and promises to impress with its clean aesthetic and functionality.

Starting with an upholstered bench and backrest you can add armrests, cushions and end tables to the system resulting in multi-purpose, movable, units. Tetris can transform lounge, hospitality and workplace environments, while the privacy panels offer the additional and modern option of setting up quiet work spaces within busy open offices.

Upholstered components are available in a wide range of graded-in fabrics, leathers or COM, while Tetris's polished chrome frame can be finished with black or white epoxy paint.

*Please note: some installation images show several Tetris models combined together.

Release Date: November 2016
